**Re: Community Air Monitoring Program Data for
Property Owner Utility Trench Work – Property Redevelopment
Former Dangman Park Manufactured Gas Plant Site
Brooklyn, New York
Site No. 224047
Index # A2-0552-0606**

Dear Mr. Wu:

This letter transmits one electronic copy of the Community Air Monitoring Program (CAMP) data for April 26 and 27, 2016 at the Former Dangman Park Manufactured Gas Plant Site in Brooklyn, New York. The CAMP was conducted by Arcadis of New York, Inc., on behalf of National Grid, during excavation of a shallow utility trench at the Site. The work is being conducted by the property owner as part of the property redevelopment. There were no exceedances of the CAMP action levels during the work.

The work conducted on April 26 and 27, 2016 concludes the shallow utility trench work at the Site. To date, we have not been notified by the property owner of any additional subsurface work.

Sincerely,

Katherine Vater
Project Manager

Dear Ms. Vater:

This letter transmits the community air monitoring data collected on April 26 and 27, 2016 in connection with the property owner's (Owner's) utility trench work in the front parking lot of Block 7273, Lot 1. The front parking lot is located within a portion of National Grid's former Dangman Park Manufactured Gas Plant (MGP) Site (the Site). Arcadis conducted the community air monitoring on behalf of National Grid and in accordance with the New York State Department of Environmental Conservation (NYSDEC) approved Community Air Monitoring Plan (CAMP) for the Site.

Real-time air monitoring was implemented at the Site for volatile organic compounds (VOCs) using a photoionization detector (PID) and particulate matter using a particulate monitor. The community air monitoring data were collected at one (1) upwind monitoring location and one (1) downwind monitoring location during the intrusive trench work activities. There were no exceedances of action levels associated with these activities.

Ms. Katherine Vater
